

6600

6600 SERIES LOW-PROFILE MILD & STAINLESS STEEL BASES

QUALITY, VALUE, AND LONG LIFE —

Whatever your requirement — portable or permanent; on floor or in-pit; wet or dry; drop and weigh or drive-on — there's a 6600 base to exceed your expectations.

With thousands of satisfied users, the 6600 has a reputation for quality, value, and low maintenance costs.

6600 SERIES STEEL BASES

Features:

- Made in the USA
- Rugged, heavy duty design for rough industrial use
- Available in custom capacities/sizes at standard pricing
- Four Sensortronics™ or premium load cells
- Adjustable leveling feet
- Powder coating standard on 48" x 48" 5,000 lb. base
- Designed for permanent or portable installations
- Optional four-way ramp access
- Safety diamond plate surface (except stainless)
- 20' cable to digital indicator or counting scale
- Special requirements for unique loading
- Structural performance assured with computer aided design
- Full support for legacy products
- Free factory matching when ordered with any Pennsylvania counting scale or digital indicator
- 5-year limited warranty

Additional Features (Stainless Steel Models):

- 302/304 stainless steel construction
- Smooth plate deck (provides more surface contact than optional diamond plate in wet areas)
- All stainless steel load cells, hardware, and construction
- Remote stainless steel summing box, NEMA 4 rated

Options (Mild Steel Models):

- Stainless steel load cells and hardware
- Remote stainless steel summing box, NEMA 4 rated

Load Cell Specifications:

- Premium load cells are NTEP approved
- 100% end loading plus positive overload protection

Optional stainless steel construction and load cells provide excellent utility in harsh or wet applications and meet USDA standards.

Ramps for 6600 Series Bases:

Size (W x L x H)	Capacity (lbs.)
24" x 36" x 3"	Up to 5,000 lbs.
30" x 36" x 3"	
36" x 36" x 3"	Up to 10,000 lbs.
48" x 36" x 3"	
48" x 48" x 3"	
60" x 36" x 3"	
48" x 48" x 4"	Up to 20,000 lbs.
60" x 48" x 4"	
48" x 60" x 5"	Up to 40,000 lbs.
60" x 60" x 5"	
72" x 60" x 5"	
84" x 60" x 5"	
96" x 60" x 3"	

Applications:

- Shipping, manifest systems
- In-line weighing or checkweighing
- Bench or floor counting and weighing
- Food or chemical processing
- In-motion weighing systems
- Portable weighing station
- Drum, keg, or barrel weighing
- General purpose weighing

Warranty:

The parts and components of these Pennsylvania Scale Company products are warranted for five years from the date of retail delivery against defects in materials and workmanship, subject to the terms and conditions of our standard warranty.

6600 SERIES STEEL BASES

Optional Equipment and Accessories:

Extremely Durable Powder Coating

Pennsylvania's powder coating resists chips, cracks, abrasions, and chemical corrosion.

Ramps

Provide easy access to 6600 bases for tow motors and pallet jacks. Add two ramps for easy on/off weighing. Hooks on front of ramp and lagging tabs securely hold base from shifting.

Customizable

A wide range of standard and custom size capacities and loading specifications for virtually any application.

Base Anchors

When lagged to the floor, these anchors keep the base in position in high-traffic areas.

Digital Indicators

Choose from a variety of fast and accurate digital indicators to enhance the efficiency of any 6600 base.

7600+ Scale

Include a 7600+ counting scale for dual base counting systems. Contact your distributor for more information.

Bumper Guards

Simple yet efficient design protects 6600 base from accidental hits from tow motor forks. Painted safety yellow for high visibility.

Fork Lift Skids

Allow fast and easy movement of bases with tow motors. Fork lift skid option includes extended leveling feet. All load cell wiring is protected inside steel tubes.

Pit Frame and Kit

Allows easier pit installation of 6600 base. Pit frame doubles as form for pouring concrete. Available in painted mild or stainless steel.
